

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I am from a poor family and phone cards and wireless phones are the only way that we can afford to keep in touch with family and friends accross the nation. If you raise the cost of phone cards and wireless services, there will be no possible way for my family to keep in touch.

I use my own wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Candace Zak
